Planning an advertising campaign for a specific time - 20 sec or 30 sec

We discuss this individually with the client and then present the proposed costs.

To enhance your advertising, you can send a journalist to your company's headquarters to edit a short 1.5-3-minute audio-video promotional material using a camera or drone, and then post it on social media. Costs depend on the location, travel distance, and recording time for the materials that then need to be edited.

Prices do not include the 21% VAT applicable in the Netherlands.

If you have any questions or suggestions, please contact me, and we will certainly work together to find the best solution for both parties.

Sincerely,
Lukas Przelaskowski
